MONTREAL, SATURDAY, OCTOBER 11, 1924.

CONTEMPORARY VIEWS ON INITIATION.

There is a growing tendency on the part of American Universities to change their forms of hazing of freshmen from the rather questionable and rough tactics hitherto practised, to much more rational forms of initiation. It seems to be a point of common agreement among all Universities that some form of initiation is necessary, but now the majority are beginning to realize that freshman initiation should take the form of a welcome rather than the carrying out of practices which tend to estrange the freshman from his Alma Mater — and which force the first year man to look upon the sophomore as one to be feared and avoided.

Oberlin University has adopted debating — freshmen versus sophomores — as their particular form of initiation. This very excellent scheme not only introduces first year men into the society of their seniors, but also tests out their ability as speakers, giving the college an idea of what they may expect from their freshmen in this line. The unseemly and unsightly actions that have hitherto been connected with the annual entrance of new men have given place, in this instance, to a much more dignified and useful occupation. In other United States Universities, the same principle is being applied, by the substitution of regularly conducted athletic contests for the excesses previously perpetrated.

This movement on the part of the American Colleges is clearly indicative of a marked upward trend in the mentality of the students. A certain amount of noise, and a considerable amount of play, will always form an integral part of college life. It must, or an essential element in the make up of the college man would be lacking. But it is very difficult to make out a case for the old form of hazing, using this argument as a basis, for the old style of initiation was neither sportsmanlike nor was it productive of any but the most undesirable results.

CONDENSED COMMENT.

The sentiment expressed editorially in "The Dartmouth," and reprinted in this issue of the "Daily," regarding the recent McGill-Dartmouth rugby game, reflects an ideal spirit on the part of students of a sister university. The splendid tribute paid to the McGill players is a balm to those who may have entertained any doubts as to the advisability of playing rugby on American territory. The students of Dartmouth may be assured that their friendly and unprejudiced opinion on this subject has been appreciated and goes a long way towards strengthening an already firm friendship between the two universities.

The results of the inter-faculty track meet yesterday adds weight to the general impression that, in spite of the loss of several track stars, McGill will enter a team in the intercollegiate event this year that compares favourably with championship teams of previous years. Five records were broken, some of these excellent intercollegiate marks. Recruits from the first year are especially to be congratulated on the fruitful results shown of a comparatively short period of training.

FIVE RECORDS SHATTERED

(Continued from Page One)

third and Morton placed fourth.

The low hurdles was another cheerful battle. Consiglio, and Michael went over the line first in the initial trial. Pierce and Darling were away in the second heat. The final heat saw Pierce come down the track like a cyclone, cross the line and break the record. Consiglio was second and Michael third. The time was 27 flat.

The afternoon had a thrilling finish when Spence after setting a terrific pace in the quarter was unable to hold the speed that Patterson exhibited and Hurd, Airey and Davidson piled in their respective order to close a successful meet.

The final score of the meet was as follows:— Science 47, Arts 41, Medicine 41, Law 19, Macdonald 3.
Discus throw—W. R. Kennedy, Medicine, won; M. Gaboury, Law, second; F. O. McGill, Science, third; P. E. Wolcott, Science, fourth. Distance, 96 feet 11-12 inches.

Half mile—F. W. Hurd, Arts, won; J. Duckworth, Arts, second; H. T. Airey, Science, third. Time, 2 minutes 1-5 seconds.

150 yards high hurdles—F. D. Pierce, Law, won; F. Consiglio, Science, second; J. D. Darling, Science, third; T. C. Darling, Science, fourth. Time, 14-1-5 seconds. New record.

Pole vault—W. Consiglio, Science, won; M. Gaboury, Law, second. Height, 16 feet 4 inches.

100 yards—K. W. G. Patterson, Science, won; W. H. Gavrie, Medicine, second; K. W. Spence, Arts, third; W. B. Davidson, Medicine, fourth. Time, 14-1-5 seconds. New record.

10 2-5 seconds.

Running high jump—W. R. Kennedy, Medicine, won; W. Consiglio, Science, second; T. M. Cole, Arts, third; J. W. Norton, Medicine, fourth. Height, 5 feet 4 inches.

Putting 16 pound shot—J. W. Jardine, Arts, won; T. M. Cole, Arts, second; W. R. Kennedy, Medicine, third; J. P. McInerney, Medicine, fourth. Distance, 37 feet 7 inches.

Running broad jump—K. W. G. Patterson, Science, won; W. R. Kennedy, Medicine, second; R. A. Bell, Arts, third; T. R. Theobalds, Science, fourth. Distance, 22 feet 3-12 inches. New record.

One mile—N. W. Rubin, Medicine, won; H. W. Clement, Medicine, second; T. Kerr, Science, third. Time, 4 minutes, 45 seconds.

220 yards—A. W. Spence, Arts, won; W. H. Gavrie, Medicine, second; A. H. Lasgomas, Science, third; J. P. McInerney, Medicine, fourth. Time, 23-4-5 seconds.

440 yards—K. W. G. Patterson, Science, won; F. W. Hurd, Arts, second; H. G. Airey, Science, third; G. Davidson, Arts, fourth. Time, 53-5-5 seconds.

220 yards low hurdles—S. D. Pierce, Law, won; F. Consiglio, Science, second; E. B. Fry, Science, third; J. D. Darling, Science, fourth. Time, 27 seconds. New record.

Javelin throw—D. Smith, Arts, won; M. Gaboury, Law, second; A. Goddard, Medicine, third; J. W. Morton, Medicine, fourth. Distance, 136 feet 5-12 inches. New record.

Three mile—W. W. Goforth, Arts, won; Walker, Macdonald College, second; C. Brain, Science, third; J. Bonness, Science, fourth. Time, 16 minutes 23 seconds. New record.

Full back—Brazhaw.

NOTICES

NOTICE

The Rt. Rev. Bishop Arthur C. Headlam, of Gloucester, England will be delivering a series of lectures at the Royal Victoria College and Presbyterian College during this week, culminating in a University sermon to be held at Christ Church Cathedral next Sunday at 3 p.m.

INTERFACULTY RUGBY MANAGERS.

Some discarded uniforms have been allotted to the different faculty teams, and may be secured from Major Forbes at the Union. Will the faculty managers please call for their bundles.

STUDY GROUPS.

Study and discussion groups on religious and other topics are now being formed for the coming season. Students desiring to join groups are invited to communicate with the secretary of the S.C.A. at Strathcona Hall, or with any member of the board.

COMMERCE RUGBY TEAM

There will be a practice of the Commerce Interfaculty Rugby team at two-thirty Monday afternoon on the old Campus. All players in the Faculty are requested to turn out for a preliminary signal practice. Any one with rugby ability is requested to be on hand. Uniforms will be supplied. The first game in the schedule is to be played one week from yesterday and it is very urgent that all who intend to turn out for the first practice. Further information may be obtained from F. Kelland or P. Kenrick.

ARTS '25.

A meeting of Arts '25 will be held on Tuesday, Oct. 14th, after English lecture, in the Biological Building. Officers for session 1924-25 to be elected at this meeting.

COMMERCE FRESHMEN.

All new men in first year Commerce will, during the next two weeks, wear their collars and vests back to front, and not wear a tie. Any man not wearing a vest must leave his shirt tails out.

SWIMMING.

The McGill hours at the K. of C. tank for water polo and swimming are as follows:

Monday, Wednesday and Friday—5.30 p.m. to 6.45 p.m.

General swim Tuesday, 2.30 to 4; Thursday, 5 to 6.

Pool also open Tuesday, 5 to 6.30; Saturday, 2 to 6.

Mr. Mark Verley will be on hand to give swimming instructions on Tuesday from 2.30 to 6.30.

CHECK ROOM.

Will those checking clothes at the Union check room kindly wait for their checks before leaving and save confusion afterwards.

NOTICE.

The postponed meeting of the Chemistry Industry Club will be held Monday, the 13th, at 5 p.m.

SICK STUDENTS.

Students who are confined to their rooms or to the hospital through illness will be given flowers and other attentions by the Ladies Auxiliary of the S.C.A. Anyone knowing of sick students are asked to communicate with Mrs. Willey, Up. 3201.

DELTA SIGMA SOCIETY

There will be a meeting of the Delta Sigma Society on Monday, Oct. 13, immediately following the Undergraduate meeting in the R. V. C. Common Room.

COMMERCE '25 and '27

There will be a meeting of the second and third years of the School of Commerce at twelve o'clock this morning. A short meeting will be held in which the principle business will be the election of a Treasurer of the Commercial Society.

FRESHMAN PRESIDENTS

The Freshman Presidents are requested to attend an important meeting in the Grill Room at the McGill Union today at one o'clock. Several very important matters pertaining to the freshmen are to be discussed and a full attendance is imperative.

ALL MASONS IN ARTS FACULTY
You are earnestly urged to hand in your name and address and phone number immediately to J. Duckworth of Arts 27 who is the Arts representative of the McGill Masonic Club; or to Bill Gentleman, Janitor, Arts Bldg.

This notice also invites you to attend University Lodge in the Masonic Temple tonight at 8 o'clock.

ENGLISH RUGBY.

Every member of the club who has not yet done so, must leave his eligibility form correctly filled out, with Manager Jack Lochead, before to-day's game. The following are asked to report at Molson Hall by 8 p.m. for the game:

Full back—Brazhaw.

Three-quarters—Hare, Woolcombe, McGregor, Molnerney.
Halves—Bourque and Starkey.
Forwards—Front rank: Wilson, Roome, Blundell.

Second Rank: Knowles and Loch-ead.

Third rank: Walter, McDougall and Evans.

Reserves: Forwards, McGoun; back, Angvine.

MACCABAEAN CIRCLE.

The following officers were elected last April for the year 1923-24:— President—B. L. Cohen.
Vice-president—C. Brownstein.
Treasurer—S. Chait.

Rec. Sec.—Miss M. Ratner.
Corr. Sec.—A. Rosenthal.

Executives—Miss S. Lazarovitz.

Miss H. Tapila, O. Klinenberg, I. J. Wolf.

The open meeting is to be held on Sunday, October 19, at 3 o'clock, at the McGill Union.

SCIENCE UNDERGRADS.

A general meeting of the Science Undergraduate Society will be held in Room 33 of the Engineering Building on Monday, October 13. General business will be discussed and a treasurer elected.

CERCLE FRANCAIS

The first meeting of the Cercle Francais for the session of 1924-1925 will be held on the evening of Tuesday, Oct. 14. The exact hour and place will be announced later. All men students are invited to be present.

R. V. C. UNDERGRADUATE SOCIETY

A meeting of the R. V. C. undergraduate Society will be held on Monday Oct. 13th, at one o'clock in the Common Room to discuss the question of Intercollegiate Debating.

ROOTERS' PRACTICE

On Tuesday the 14th and Friday the 17th will be held two practices of the Rooters' Club in the Ball Room of the Union. These will be the last chances for a practice before the game with R. M. C. on the 18th and a large turn-out is essential. The time is five P. M.

INTERFACULTY FOOTBALL.

Fifteen games in all have been arranged, and the schedule is as follows: Med. vs. Law—Monday, Oct. 13. Arts vs. Sci.—Wednesday, Oct. 15. Comm. vs. Dent.—Friday, Oct. 17. Med. vs. Sci.—Monday, Oct. 20. Arts vs. Dent.—Wednesday, Oct. 22. Comm. vs. Law—Friday, Oct. 24. Med. vs. Dent.—Monday, Oct. 27. Arts vs. Comm.—Wednesday, Oct. 29.

Law vs. Sci.—Friday, Oct. 31.

Med. vs. Arts—Monday, Nov. 3.

Comm. vs. Sci.—Wednesday, Nov. 5.

Law vs. Dent.—Friday, Nov. 7.

Med. vs. Comm.—Wednesday, Nov. 12.

Arts vs. Law—Friday, Nov. 14.

Sci. vs. Dent.—Monday, Nov. 17.

As the last game comes at late as Nov. 17th, all the games must be played on their respective dates — rain or shine, and must all start at 3 p.m. sharp.

Campbell Cope, the senior Manager, will supply the referees.

SCIENCE RUGBY.

There will be a uniform practice at 11 a.m. to-day on the old campus. Players will dress at Molson's Hall. All out; games start next week.

C. G. SCOFIELD.

Agst. Manager.

NOTICE.

There will be a practice of the Medicine football team at 2.15 Monday afternoon, before the game with Law, which will commence at 3.30 the same afternoon. The following men are requested to turn out:

Ahey, Gomeray, Walker, Patterson, Smythe, Rankin, Chisholm, Grassick, Woodruff, Chessman, Chalmers, McLeod, Peacock, Schwartzman and all others who played last year.

R. V. C. SPORTS DAY.

The annual Sports Day will be held on Friday, October 24, at the Molson Stadium.

It is essential that all entries be made as soon as possible, as the lists will be taken down on Saturday, Oct. 11th.

The practices have already commenced.

M. MacLAREN.

Sports Manager.

GYM CLUB.

A meeting of the Gym Club will be held on Monday, Oct. 13th, at 5 p.m., in the Reading Room of the Union. Anyone interested in apparatus work is invited to attend.

D. O. BRENNER.

Manager.

WESTERN CLUB EXECUTIVE.

There will be a meeting of the executive of the Western Club to-day, in Room 25, Strathcona Hall, at 7.30 p.m. Important business.

LOST AND FOUND

FOUND.

Two fountain pens and two Ever-sharps. Owners may obtain same by applying to the Janitor of the Arts Building.

FOUND.

Tie-pin, in front of Strathcona Hall. Apply Porter's desk, Union.

FOUND.

Freshman's Bible No. 1080. Apply Athletic Board.

FOUND.

On campus during Science football practice, a Yale key number. Leave note Locker 301.

LOST.

A cigarette case at the Stadium on Saturday. Kindly leave note for locker 391.

LOST.

A Red and White sweater on the campus yesterday afternoon. There was a "patina" wrist watch and a sum of money in the pocket. Will the finder kindly communicate with R. S. Schleifer at Strathcona Hall, Uptown 2082.

LOST.

A brown club bag was left in the Cafeteria Thursday night, Oct. 2. Will the finder please return it to the check room.

LOST.

A gym suit was left on the campus Wednesday night. Will finder please leave at Strathcona Hall or with Harry, at the Engineering Bldg.

LOST.

One 8-inch slide-rule (K. and E.) in Engineering Building or on campus. Name McKee on case. Finder please return to Janitor, Engineering Building.

LOST.

McTavish street, lower end, Friday afternoon, brown leather wallet, one side sewn with black thread. Contains private correspondence, snaps, and notes. Finder on returning same to V. C. Rose, 55 McTavish street will be rewarded.

MR. J. J. GAGNIER PRACTICES BAND

(Continued from Page One)

other popular Old McGill songs.

The C. O. T. C. has put its instruments at the disposal of the band so there will be instruments for all who care to join up and who have none of their own. Baritone, bass and clarinet players are needed badly. There is also room for more cornet players.

To date only about one half the members have paid their dollar deposit. It is hoped that the remainder will pay up at the next meeting; it is not fair to those who have if they do not.

The next practice will be Tuesday at 5 o'clock in the ballroom of the Union. At this practice the drummers will be given a try out.

STORIES OF GAMES WILL BE POSTED.

(Continued from Page One)

The throng opposite the "Star" office yesterday would no doubt be glad to have the benign Mr. Honegger offering generous afternoon tea, to them.

If that had been the case, there might have been a crowd extending from Place d'Armes to Bonaventure Station. But this is what the Union Cafeteria is doing this afternoon. So with two instincts of loyalty surging in their breasts—the loyalty to stomach and the loyalty to College—the crowd at the Union tomorrow should at least fill the cafeteria and a little over.

RUGGER MEN TO PLAY MONTREAL

The McGill English Rugby team will meet the Montreal fifteen on the Campus this afternoon at 3.30 p.m. for the second practice game of the season. The city men have been playing together during the summer, so they easily subdued the newly-organized McGill outfit at last Saturday's meeting. However, a week of conditioning and good coaching should bring a change of affairs, so that to-day's game ought to be much more hotly contested.

The Montreal team will utilize the afternoon to select a representative fifteen to play Toronto on October 18th, while McGill will "break in" several new comers in order to give them their chance to show their worth. The team, which appears in the notice column, has been selected with a view to getting those men who have attended the practices regularly and thus developed some condition, and those also who have shown themselves willing and eager to snap right into the play. These men are requested to report at Molson Hall at 3 p.m. and any member of the club who has not handed in his eligibility form is asked to leave same with manager Jack Lochead, before the game without fail.

Chums

Noah Webster had the right idea about the word "Chum"—"a room mate at college or university—an old and well-liked friend."

He probably had Old Chum Tobacco in mind when he wrote this definition. Perhaps it helped him frame it.

Smoke

OLD CHUM

The Tobacco of Quality

in ½ lb. tins and 15¢ Packages

Manufactured by Imperial Tobacco Co. of Canada, Limited

When once you have tried our Lunch or Dinner at 60c You'll wish some one had "tipped you off" before.

ORGANIZATION of the MCGILL CHORAL SOCIETY

in the UNION MUSIC ROOM
TUESDAY, OCT. 14, 1924, 5 p.m.

All men and women students invited to attend.

University Service

Christ Church Cathedral

Sunday, Oct. 12 at 3 p.m.

A small choir is needed to lead the singing at this service. Students with some singing experience are asked to sign at once the notice on board in Union (name and address) if willing to join the choir for this occasion.

They should also indicate by a "T" or a "B" whether the voice is tenor or bass.

(signed) H. C. Perrin.

Dean of the Faculty of Music.

PROFESSORS DEFEATED IN GOLF-MATCH

Students' Average Defeat of
Last Year

AT DIXIE LINKS

McGill's Chances Very Fair
in Coming Intercollegiate
Golf

By Seventeen points to fourteen, the Students defeated their friendly enemies, the Professors, in the annual golf-match held at the Royal Montreal Golf Club links, Dixie, yesterday morning. This was a pleasant change of fortune, as last year the members of the faculty won a decisive victory. The great majority of yesterday's games were very close, three actually ending all square.

From eight-fifteen until well after eleven, the foursomes drove off as quickly as the course could accommodate them, and while there was little congestion evident, every hole was well occupied. The South course was almost universally the choice of the players, as the ball matches were the rule on the better half of the links, but more than one battle royal was waged on the fields.

Dr. Rattan, only assisted by Dr. White, arranged the line of the Professors, while Ward, Allan and L. G. McKillop were in charge of the victors.

Many games were continued after the lunch hour and the results were not finally announced until well on in the evening. There were thirty-three four-ball games, and one single, in the post-prandial.

The plan of saving time and space by having foursomes instead of singles, as in the past, worked most successfully, and will doubtless be followed next year. Although no low scores were recorded, some being under 80 as far as was known, this was due to the fact that a top-dressing had been applied to many greens, while blowing leaves had covered several others. The course was, however, in excellent shape for this time of the year.

Many prospects for the University Golf Team, which meets Toronto and perhaps Montreal, on Oct. 14 and 15, at Beaconsfield were uncovered during the day. Toronto has as last year an exceptionally strong team, but with such men as Hayes, McKillop, Mitchell, Cochrane, Allan, Cameron, and others at McGill, there is a hope for the reversal of last year's fortune, when Varsity gained an overwhelming victory. Any man who plays consistently around 80, and others who believe they will be an asset to the team, should communicate with L. G. McKillop, 494 Pine Ave. or W. Allan, Sherbrooke Hall, as soon as possible.

By incident, the formation of Toronto Varsity regarding the proposed entrance of the University of Montreal into intercollegiate golf will be known. McGill officials expect that Varsity will join with the club here in welcoming the Freshmen.

The teams will line up as follows:

Staff	Students
A. P. Giesse	R. N. Hayes
Dr. C. Joyce	L. McKillop
Dr. C. A. Peters	A. W. Mitchell
Dr. Archibald	B. Cochrane
Dr. C. P. Wray	A. Clarke
Dr. C. Martin	W. Allan

McGILL AND VARSITY TO MEET TO-DAY

Toronto Out to Avenge Last
Year's Defeat

STRONG TEAM

McGill's New Line Has
Rounded Into Good
Form

This afternoon at the Varsity Stadium, The McGill Seniors will meet their old rivals in the first game of the Intercollegiate series. The Toronto men are out for a victory and are eager to avenge the 16 to 8 defeat that they suffered at the hands of the Red and White squad last year. The McGill team, though a newly formed aggregation, have been working like Trojans for the past three weeks to perfect their team play and get the jump on the Varsity squad at the outset. The McGill team is an entirely new one from that which took the field last year. In the line, only one man of last year's squad is playing. This man is Manson the husky middle who is the only veteran lineman on the squad. Murphy, Glasco, and Boucher played last year, but were not regulars. The back field, however, is intact, and McKillop is also a veteran from last year. With a new line in the field, Coach Shaughnessy was at the outset a bit dubious about the success of the squad in the coming season, but after the way in which the men turned out to practice, and the manner in which they worked at the plays, he is beginning to feel very optimistic as to the outcome of today's battle.

The Varsity squad have this year seven of their regular players back in uniform, including Warren Snyder. The Varsity captain, to all reports, is going stronger than last year, and the Toronto papers claim that the Varsity backfield compares favourably with any in Canada. The holes left in the line by graduation have been filled with good men, and the Blue and White are putting a very strong aggregation into the field. It is claimed that the Varsity squad is a much stronger one than has represented the university in many years, and high hopes are entertained that last year's defeat will be avenged.

The teams will line-up as follows:

TORONTO	McGILL
Webster	Shap
Bales	Left inside
S. B. Snyder	Right inside
Kling	Left middle
Morrill	Right middle
Campbell	Left outside
Seaton	Right outside
McIntyre	Third wing
Mills	Quarter
Bousherville	Left half
W. Snyder (Capt.)	Little (Capt.)
Proctor	Center half
Taylor	Fullback
	McCombe
	Almond
	Murphy
	Joins
	Cameron
	Gorrie
	Houcher

DARTMOUTH STUDENTS DEBATE ON ELECTIONS

Hanover, N. H., Oct. 10.—(By Exchange Service) Representing the political parties of the United States in an open forum held in Dartmouth Hall here last night, six students of Dartmouth College spoke for five minutes each, extolling the merits of the particular faction they represented. The main was taken part in by faculty and students.

A ballot was taken after the forum, which is intended to indicate Dartmouth's stand on the American presidential elections. The results of this ballot will be known to-morrow.

City Elitist—Aw—that butter milk was very nice, my dear. What payment do you expect for it?
Farmer's Daughter—Nothing, Sir. We always feed it to the hogs.

Dr. D. Keys	R. J. Carron
Dr. Wickham	McCormack
Dr. Henry	J. Quinlan
Dr. Hepburn	D. Walsh
Dr. J. Nutter	G. M. Hyde
Dr. Pavey	W. Thompson
Dr. M. Cashin	A. Olmsted
Dr. H. Burke	J. Wright
Dr. Blackader	C. Archdale
Dr. J. Todd	M. Lindsay
Dr. S. Gurd	J. B. B. B.

Financial Statement for Students' Society 1923-24

THE PRESIDENT and MEMBERS,
Students' Council of McGill University.

Dear Sirs:—

We beg to report that we have completed an audit of your books and accounts for the year ended 30th June, 1924, and we enclose Financial Statements as shown by the Index appended hereto.

The year's operations resulted in an excess revenue of \$1,879.00 without taking into account the adjustments in Surplus Account applicable to previous years, the principal one being a charge of \$1,163.60 made in order to reduce to fifty cents (50c) each the value at which the Song Books are carried.

The Cafeteria showed a loss of \$1,577.23 as contrasted with a Profit of \$494.70 in the previous year. In explanation of this there was spent on Repairs and Renewals \$2,059.18 in 1924 and \$726.86 in 1923. We would however draw attention to the increase in the percentage of cost of provisions to sales.

We verified the Cash in Bank and saw vouchers for the disbursements.

Subject to the above remarks we certify that in our opinion the attached Balance Sheet is properly drawn up so as to exhibit a true and correct view of the Council's affairs, according to the information and explanations given to us, and as shown by the books.

Yours very truly,

McDonald, Currie & Co.
AUDITORS.

SOCCER TEAM PLAY R.C.M.P. AT 2 O'CLOCK

Put on Final Touches at
Practice Yesterday

GAME ON CAMPUS

Hard Shooting and Accurate
Placement Displayed by
Eleven

Yesterday the McGill Soccer team had its final work-out before its initial game with the R. C. M. P. today at 2 p. m. on the campus. The men who constitute the team have improved considerably in their game, and it is very gratifying to know that in ten days hard training they have accomplished as much as they have. The forwards have been doing some really hard shooting, and the back divisions have perfect control of the ball. The combination of the team as a whole is not as perfect as it should be, but this is due to the fact that the team has undergone much change and therefore most of the men are quite new to one another and to the different types of play. Despite this drawback the men are quite optimistic about today's result, and this weakness will be considerably overcome when they run up against an outside team.

The backs, Cave and Stephenson, are very dependable, and have had considerable experience in first class football. The half line is composed of three new men who have shown excellent form and are sure to give the forwards all the support they will need. The forwards possess most of the speed of the team, and if they play true to form the R. C. M. P. defence will have great difficulty in keeping the Red and White men from scoring. In yesterday's practice the accuracy of Ballen's centring, and the speed and placement of Moffatt's shooting was astonishing. Captain Seaton as centre forward fairly fascinates the onlookers, and petrifies his opponents with his clever footwork, and is certain to keep the goal keepers busy.

The left wing of the team is much faster than the right, but this defect is overcome by Scott's experience and Shippam's remarkable ability in centring.

The R. C. M. P. team has been strengthened by men from Ottawa, and expresses much confidence as to the outcome, but the Red and White team is quite as sure of playing its way to victory.

The following are the teams.
McGill—Davidson, Cave, Stephenson, Helwig, Archdale, Giovanni, Ballen, Moffatt, Seaton (Capt.) Scott, and Shippam.
R. C. M. P.—Hobbs, Kyle, Blake, Raymond, O'Sullivan, Salt, Thomson, Tepp, Coule, Richards, Lawson.

Hotel Guest (to page): "What is your name, my boy?"
Page: "They call me Billard Cue because I work so much better with a good tip."

Judge—Ten Days or Ten Dollars.

Prisoner—'I'll take my time.

—N.Y. Medley.

AMERICAN PRESBYTERIAN CHURCH

Dorchester & Drummond Sts.
Montreal

Ministers: Richard Roberts, D.D.
Alex. Kerr, B.D.

Sunday Services:

Public Worship at 11 a.m. and 7.30 p.m.

DR ROBERTS will preach at both Services.

Evening Subject:

"HOW MUCH CAN WE KNOW ABOUT GOD?"

The Young Men's Bible Class meets every Sunday at 2.15 p.m. Leader, Mr. P. A. Dolg. The Class is made up largely of McGill men. This Sunday Dr. Roberts will address the Class.

At 6.15 o'clock on Sunday Evenings there is an informal Social Gathering to which McGill men and women are cordially invited. The first will be held tomorrow afternoon, October 12th.

At 7 o'clock on Sunday Evenings there is a half-hour of Music. Mr. Bryceson Trehanne, Organist and Choir-Director.

You are cordially invited to attend the

YOUNG MEN'S BIBLE CLASS

at the
AMERICAN PRESBYTERIAN CHURCH
on

SUNDAY AFTERNOON at 3.15 P.M.

Special address by Dr. Roberts on Sunday Oct. 12.

FRESHMEN ESPECIALLY WELCOMED

ST JAMES METHODIST CHURCH

Corner St. Catherine and City Councillor streets

Minister: Rev. G. A. McIntosh, M.A., B.D.

8.15 a.m. Unveiling of Memorial Window in honour of the men who went overseas during the great war.
Rev. Arthur W. Currie will unveil the window.
Hon. George P. Graham, acting Prime Minister of Canada, will give an address.
7.00 p.m. Service in connection with unveiling of Memorial Window continued.
Right Hon. Arthur Meighen will give the address.
Students welcome at all these services.

EMMANUEL CHURCH.

(Congregational)

Drummond Street Near Sherbrooke St.

REV. J. W. G. WARD Minister

Services morning at 11. Evening at 7.15

Mr. Ward will continue his series of sermons in the evening upon:

"QUESTIONS OF THE HOUR"

Subject for Sunday: "Why Prayer is Unanswered"

YOU ARE WELCOME.

Lay associate Organist and Musical Director.

A. R. Grafton. Harold Eustace Key.

ERSKINE CHURCH

(Presbyterian)

Sherbrooke Street Top of Crescent

MINISTER: REV. GEORGE HANSON, M.A., O.D.

11 A. M. Mr. Kanakarayan T. Paul, National Secretary of the Y.M.C.A. in India, will preach. Mr. Paul is one of the greatest native leaders in India and has a fascinating story to tell.

7.30 P.M. Preacher, Dr. Hanson. Subject: "Roman Catholicism, its eternal charm." This is the first of a series and at the close of each lecture there will be an opportunity in the lecture hall for question and answer.

Music: At the morning service the double quartette will sing "I will sing of Thy power, O God" by Sullivan, and Mr. C. W. Robinson, Bass soloist will sing Cowen's "Thanksgiving." In the evening, the choir will render Shelley's "Saviour when night involves the skies" and the quartette will sing "In the garden" by Charles Root. Organist, Ernest F. Kerr.

STUDENTS CORDIALLY WELCOMED.

Report Of The Principal

(Continued)

In the Faculty of Applied Science it was found possible to take another step forward and provide for the extension of the Department of Electrical Engineering, foreshadowed in last year's report. It became evident as a result of investigations made last winter that while in other branches of Engineering there is no increase in the demand for young engineers, Communication Engineering has a demand greater than the supply. It is possibly due to the fact that in this branch engineers have so far received a somewhat insufficient University training that the remuneration has been less than might be hoped, but a considerable change for the better is becoming evidenced.

The Department of National Defence has assumed the responsibility of a great deal of wireless communication, especially in the West, and it requires a fairly constant number of Engineering graduates for this service. In this connection it is interesting to note that preference is to be given to graduates holding C. O. T. C. certificates. The great power companies are installing their own communication systems, and there is a constant increase in telephone equipment throughout the Dominion.

After much consideration had been given to the matter, it was decided to add a new wing to the Engineering Building, upon the foundations previously serving as walls for the foundry and smithy, the additional floor space available, to be about 11,000 square feet, and to permit of the complete rearrangement of the Electrical Laboratories. The department will by this arrangement, be enabled, not only to institute the courses in Communication and Telephone Engineering already referred to, but also to give instruction in Electrical Measurement in its own laboratories. In addition to this, the standardization equipment valued at many thousands of dollars, which it has been impossible to use efficiently because of lack of space, will be operated to the fullest advantage.

While there is no further progress in the building programme of the University, it should perhaps be said that the reason for constructing the Engineering wing prior to those buildings which were mentioned before in last year's report, was that it was possible to carry out the work at a comparatively small cost, and that the University was fortunate enough, through the kind offices of some of its friends, to meet the expense without any serious inroad on the funds already in its possession or in view. Any other items of work of which there is immediate and pressing need, such as the remodelling of the Arts Building, the erection of a new Mining and Geology Building and the construction of a gymnasium, would have involved the expenditure of a much larger sum than was available in this instance.

Through the generosity of an anonymous friend the University has been put in possession of a most convenient building as a club for the staff. The Faculty Club serving as it does the need of a University Community Room, has proved a most useful and pleasant meeting place.

We must not leave the subject of new buildings without mentioning the magnificent gift of Lady Roddick, who has presented the University with a new Entrance Gate and Clock as a memorial to her husband, the late Sir Thomas G. Roddick, for so many years a member of the McGill staff, and long Dean of the Faculty of Medicine.

It is fitting that this survey be closed with a brief recapitulation of the present status of the Centennial Fund.

It is not going too far to say that the year just passed has been one in which much real progress has been made and more has become visible before us. The friends of the University may be assured that we will put forward every effort to make the most of the new facilities at our disposal, of every improvement in or-

ganization, and will endeavour to use each new advance as a step to still higher things.

UNIVERSITY ACTIVITIES

Research

A considerable amount of interesting and important research work was carried out during the session.

At McDonald College there were 25 graduate students, of whom 12 received degrees at the last Convocation, and research work was carried out in every department. Considerable attention was devoted to cultural study with grain and root crops. The College has been successful in introducing new varieties of oats and wheat, which have proved very valuable in oats, for example, the Banner 44 M. C. of McDonald College has produced more by 5 to 7 per cent, than its parent variety. In the Department of Botany important work was done in various plant diseases, and in the Department of Chemistry the work of Soil Acidity, undertaken under a special grant from the Honorary Advisory Council for Scientific and Industrial Research, was completed and reported. Investigations were also carried on by the Department of Horticulture and Poultry Husbandry, and special mention should be made of the Flock Culling work, carried on during the past two years by Mr. C. E. Lampron. This work has proved to be a valuable element in the production of a higher grade of laying stock and, carried out as it has been with the poultry service of the Quebec Department of Agriculture, has been of the most wide-spread benefit. Another interesting research was done in the case of a disease, similar to Tetanus, which caused the loss of a large number of cattle on one farm in Quebec. The organism from which the disease originated was successfully isolated and a detail report will be published in the Journal of the American Veterinary Association.

In the Department of Mining, the most important investigations were:

1. The flotation of Eustis Mine ore.
2. Flotation vs. Cyanidation of the Hollinger ore.
3. The settlement of slimes with coagulants.
4. A comparison of a considerable number of anthracite coals obtained under market conditions from Montreal dealers.

In Metallurgical Engineering Mr. W. V. Faith made a research into the constitution of nickel-copper alloys which was suggested by the management of the British American Refinery and Mr. C. R. Wittemore made a technical research for a Montreal firm.

Dr. Stanfield gave two lectures on Electric Iron and Steel Making before the Carnegie Institute of Technology and opened a discussion on Electric Furnace Refractories at the Philadelphia meeting of the American Electro-Chemical Society.

In the Department of Botany some work has been done in the field of Cellular Physiology, and further work is still going on.

In the Department of Zoology the Phillip Carpenter Fellowship was awarded to Mrs. Kathleen P. Pinhey, M.Sc., who has been studying the marine plankton or floating organisms which form the basic food supply of fishes and whose distribution affords an index to the current's prevailing off the coast. The material under examination is from the Straits of Belle Isle, and it is to be followed round the coast of Newfoundland.

In the Department of Physics Dr. A. N. Shaw has done further work on hydrometric instruments, and Mr. R. J. Clark continued observations on the ageing and temperature coefficient of Weston cells. Dr. D. A. Keys has continued his investigations on piezo-electricity, with particular attention as to the effect being isothermal or adiabatic. Dr. E. S. Bieler has recently published, in the "Proceedings of the Royal Society of London," the results of an investigation on the character of the field near the nucleus within the atom, using the alpha-particles of radium for exploration.

In the Department of Civil Engineering investigations were made:

"Net Section of Rivetted Tension Members" by L. S. McLennan, B.Sc., and "Bond Stresses in I-Beams Loaded with Concrete," by J. S. Trautman, B.Sc.

The Curriculum

The most important change in the curriculum during the past year was the abolition of the L.L.B. course, and in view of the wide-spread interest being given to the question, and the many points involved, it seems worth while to quote very fully from the report of the Faculty of Law concerning its degrees and curriculum, laid before Corporation towards the close of the last session.

The B.C.L. Degree

"The chief aim and duty of the McGill Faculty of Law is the efficient and scholarly training of law students in the existing law of the Province of Quebec. This has always been the recognized aim and duty of the Faculty and no departure from the principle was intended when, a few years ago—or be more definite, in 1919-1920—the Faculty began to offer separate courses of study in sub-

jects peculiar to English law to students attending the McGill Law School and intending to practice law in the purely English-speaking provinces of Canada and elsewhere. Any impression that the study of Quebec law were in any way prejudiced or neglected by this experiment is, in the opinion of the Faculty, quite unfounded. On the contrary, the number of hours of instruction devoted to the study of the existing law of the Province of Quebec has, in the meantime, been substantially increased. Library facilities have been distinctly improved and the number of students using the library has been multiplied. No students registered on the civil side have attended any lectures or instruction in English law, while all students on the English side have regularly attended the usual lectures on all subjects common to both systems given under the regular instruction trained in the law of this Province. In other words, the existing civil law of the Province of Quebec has always been recognized by the Faculty as the base and foundation of its work. Law schools founded upon the study of civil law and leading later to the more special study of English law have long existed at Oxford and Cambridge, and no doubt the originators of the experiment mentioned above justly felt that McGill offered promising ground for a similar school devoted to the study of all-Canadian law.

The L.L.B. Course

"The number of students registered for this course has all along been distinctly disappointing. This result is doubtless due to a complication of causes. The signers of the minority report stress the fact that the common law is not practised in the courts of the Province of Quebec, and that the resulting absence of a common law atmosphere in the courts and law offices of Montreal presents a very great initial obstacle in the way of founding a school of Common Law at McGill, with any possibility of serious ultimate success. The signers of the minority report, on their part, think that the difference in teaching content between the two systems of law in Canada is very much over-emphasized, and they point to the admittedly great success of the law schools at Oxford, Cambridge, Harvard, Columbia and other universities, where the law student is in no way afflicted with the local courts or offices during the three sessions devoted exclusively to the study of law at the university. There are, however, two cogent difficulties fully recognized by all parties interested, viz: (1) insufficient funds at present at the disposal of the McGill Law School, and (2) the practice which obtains in all the provinces of Canada by which students at law, before being allowed to practice in the province, are compelled to serve under articles of apprenticeship in a Toronto office for a period of three years. This last difficulty is clearly insurmountable at present by any action open to McGill. After carefully considering all these difficulties, the members of the committee unanimously recommended that the L.L.B. course be discontinued and that no new students be registered for this degree after the close of the present session. The members of the Faculty wish to add that while recognizing that this recommendation

will render it unnecessary to have a professor devoting his whole time to common law teaching, they, nevertheless, deem it desirable for the present at least that one member of the full-time staff should be a recognized specialist, trained in English law, competent to give instruction in some of the subjects common to both systems and especially in comparative law.

(To Be Continued)

"BEDAMN, BEN!"

The caricature of the vintage of 1776 or thereabouts, recently discovered on the walls of Massachusetts Hall, has caused considerable discussion among the intellectuals of the yard. The first word is easy; but who—or what was Ben? Was it a clock which sounded the Chapel bell in days gone by, or was it the original perpetrator of the daily seven o'clock fantasia in Harvard Hall? Possibly Ben was the parent of all modern book agents whose hickering approach was heralded long enough to allow the artist to draw the picture and the message on his locked door. Had the writing been of a blue tint, Ben might well have been the prospector of those instructors who demand in no uncertain voices that theses be written in black ink. The artist in this case might have been a gentleman, suffering from a suppressed blue desire, taking steps to relieve the complex. Or Ben might have been a tradesman's menial sent shivering into the yard in a heroic attempt to collect a bill. He might even have been a frivolous friend, whose staggering foot-steps led to the locked door of the artist—where Carnival had ceded to Social Ethics for the evening.

But, of course, the Benjamin Franklin hypothesis is the most reasonable. Someone, no doubt, was annoyed with Benjamin for some reason, and vented his wrath in this lasting fashion. Since the picture was found not far from a mail box, it is safe to assume that the Philadelphia stage had been delayed, and the Saturday Evening Post had not reached Cambridge on Thursday morning.
